F2Q26 INVESTOR PRESENTATION

Globant

Technology that dares to delight

INVESTMENT HIGHLIGHTS

Pure play in the **service-as-software** space.

Global presence, leveraging next-gen software and **the right talent and skills.**

Supervised AI at the core - **powered by** GLOB.AI as a way to scale AI Native service as software delivery.

Enterprise-grade AI delivery: GLOB.AI provides scalability, security and deterministic processes with full client IP ownership and data sovereignty.

Proven ability to acquire and integrate complementary, bolt-on acquisitions.

Recurring and **blue chip customer base.**

Experienced and founder-led management team.

Durable revenue growth and industry leading margins.

MARKET OPPORTUNITY
RESILIENT BUSINESS MODEL

On top of ongoing digital trends, the recent wave of generative AI has proven that **digital transformation is imperative for any business**:

- **Technical Debt & Core Modernization:** Modernizing legacy systems for AI-native delivery, a **$1.5T to $2.0T** market opportunity across the world's 2,000 largest public companies.
- **Interface & Experience Debt:** Overhauling customer-facing surfaces with AI-native interactions and experience models.
- **Agentic Process Transformation:** Redesigning core business processes and operating models around autonomous AI agents.

- $6T+ Market Pivot: Ratio of enterprise spend on services vs. software ($6T+ vs $700B). The next $1T companies won't sell tools—they will sell completed work via AI-native service delivery.
- By 2028, the total market for generative AI will reach a five-year CAGR of 73.5%
  Source: IDC Worldwide Artificial Intelligence IT Spending Forecast
- By 2028, Overall IT spending will grow to $7.4 trillion, with half of this spending being in the software and services markets
  Source: Gartner Forecast Alert: IT Spending, Worldwide

2025
Launch of subscription-based AI Pods model

2026
Launch of Glob.AI

New Age of Professional Services

The Shift to Service-as-Software

The Strategic Shift

- Service-as-Software Model: Expanding into a $6T+ market by shifting traditional hourly billing (T&M) to outcome, value, and consumption-based pricing models.

Platform & Unit Architecture

- GLOB.AI: The web-based self-service destination to discover and deploy AI-native services on demand.
- AI Pods: The agentic service units running supervised, production-grade workflows.

Enterprise-Grade vs. Generic AI

- Moving beyond ungoverned AI generation with deterministic, fully documented, and secure processes guaranteed by expert human oversight.

Data Sovereignty & Governance

- Complete model independence with full token sovereignty, zero client data used to train third-party models.

Key Metric: Glob.AI ARR

- **Rapid ARR Growth:** Reached $52.8M as of June, up 60% sequentially from $32.8M in March. On track to exit 2026 at no less than $110M.
- **Strong Pipeline:** Commercial opportunity pipeline stands at $436.8M, showing surging demand.
- **Client Penetration:** AI Pod model adopted by 45% of Globant's top 20 accounts.
- **Margin Expansion:** Gross margins run approximately 10 percentage points above traditional time and materials delivery.

AI-Powered Platform

What is GLOB.AI? The AI-Native Services Engine

1. THE PLATFORM

A single, web-based self-service destination where enterprises find, deploy, and consume AI-native professional services on demand, bypassing months-long discovery processes.

2. THE SERVICE UNITS

Powered by AI Pods—agentic service units run by specialized workflows and supervised end-to-end by Globant experts to ensure absolute enterprise-grade reliability and quality.

3. THE REVENUE MODEL

Shifting the technology industry from hourly billing to outcome-based or consumption-based pricing, unlocking access to a massive $6T+ professional services addressable market.

+30%

Productivity Gain

More efficient than standard engineer-plus-AI approaches.

140+

Supported LLMs

Complete model independence with absolute token sovereignty in a secure vault.

AI-Powered Platform

GLOB.AI: Scaling AI-Native Delivery

CAPABILITIES

140+ LLMs with Total Token Sovereignty

Complete model independence in a secure vault. Zero client data is ever used to train external models.

Deterministic Workflows with FDE Supervision

Agentic processes guided end-to-end by Globant experts to eliminate unscripted errors and ensure production-grade quality.

Full Traceability & Observability

Complete governance, audit trails, and process transparency across all AI Pod operations.

Studio & Platform Integration

Directly powers Globant's Studio Model and Agile Pods to scale Service-as-Software worldwide.

MOMENTUM

$52.8M

ARR as of June

Up 60% sequentially from March.

$110M+

ARR Run-Rate Target

On track to exit 2026 at scale.

45%

Top 20 Accounts

Have fully adopted the AI Pod model.

10 pp

Margin Expansion

Gross margins above traditional delivery models.

AI Pods in Action

Proven Enterprise Impact

Delivering measurable efficiency, speed, and business transformation across global industries.

Featured Case Studies

FIFA (Sports & Entertainment) Scaling a continuous, personalized global fan ecosystem using real-time data powered by Glob.AI Pods.

PharmaMar (Healthcare & Life Sciences) Accelerated drug discovery research workflows by 15x through specialized agentic AI Pods.

YPF (Energy & Supply Chain) Compressed supply chain contract cycles by 40% with automated, expert-supervised workflows.

British Airways (Travel & Hospitality) Transforming data footprints into hyper-personalized passenger experiences across the entire end-to-end travel journey

AI Pods are a dedicated, AI-native delivery unit that combines the power of autonomous AI agents powered by Globant Enterprise AI with human orchestration and oversight.

GLOBAL AUTONOMOUS **CULTURE**

Our **global delivery centers** are successful thanks to a strong and autonomous culture that runs through every Glober

Our **Agile Pods Model** aims to better align business and technology teams. They're driven by a culture of self-regulated teamwork and collaboration

Our **Inverted Org Chart** with the Pods at the front and center live by a customer-centric and autonomous culture

Our **StarMeUp** platform creates an inter-connected environment where people love to work because they feel immersed in a culture that puts them first and fosters their emotional connection

Our **STUDIO NETWORKS** foster collaboration, fuel creativity, and deliver transformative results to our clients.

- **Oracle** — Global Partner · JD Edwards, EPM and OCI

HOW WE LEVERAGE THEM

WE OWN THE SOLUTION

Industry AI Pods built on Globant IP, running on the partner's stack — we set the price and own the asset; the partner becomes our channel.

CO-FUNDED GO-TO-MARKET

Strategic agreements fund joint pursuit; partner field teams source pipeline, open new logos and carry our packaged solutions into their accounts.

OUTCOMES ONLY WE CAN PRICE

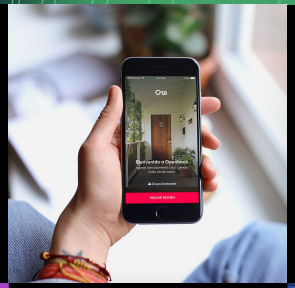
Glob.AI delivers consumption-priced outcomes through agentic AI Pods with expert oversight — an offer our partners cannot deliver alone.

SOME OF THE **CLIENTS** WE WORK WITH

OUR *Innovative* SOLUTIONS

Metropolitan Police

To improve public access to the Metropolitan Police, we helped build an online system to reduce response times by 44%



OpenBank

Creating the first true digital bank offering a highly personalized, exclusively digital banking

Autodesk

Leveraging AI and machine learning to provide insights for construction companies, such as automatically predicting potential health and safety issues

EA

Partnering with EA to bring co-development to the next level for UFC, NHL, Battlefield and other AAA games

Royal Caribbean

Royal Caribbean is using technology to create once in a lifetime guest experiences

Airline industry

Creating a completely new experience for air travelers, allowing the customer a unique journey while reducing their operating costs

Adjusted Profit from Operations excludes share-based compensation expense - equity settled, impairment of tax credits, impairment of assets, acquisition-related charges and business optimization costs

Adjusted Net Income excludes share-based compensation expense - equity settled, impairment of tax credits, impairment of assets, US settlement agreement, net, acquisition-related charges and the related effect on income taxes of the pre-tax adjustments

OUR GROWTH STRATEGY

100² STRATEGY

Focusing on 100 key accounts with potential annual revenues of $100M+ to maximize strategic value.

- Dedicated onsite teams for deep integration
- Long-term strategic partnership alignment
- Increased account roadmap visibility

STUDIO CROSS-SELLING

Leveraging specialized studio expertise to expand service offering depth across existing relationships.

- Accelerated POD model penetration
- Increasing overall projects per account
- Multi-disciplinary collaborative delivery

GLOBAL EXPANSION

Scaling operational reach through talent diversification, targeted acquisitions, and sales coverage.

- Scaling globally through over +30 countries.
- Talent pool diversification across geographies
- Broadening sales coverage for better reach

GLOB.AI STRATEGY

Leveraging supervised AI and agents to optimize delivery efficiency and software development.

- AI-powered delivery platform.
- Powered by AI Pods.
- Enhanced engineering productivity

FORWARD LOOKING DISCLOSURE

In addition to historical information, this presentation might contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “should,” “plan,” “expect,” “predict,” “potential,” or the negative of these terms or other similar expressions. These statements include, but are not limited to, statements regarding our future financial and operating performance, including our outlook and guidance, and our strategies, priorities and business plans. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. Factors that could impact our actual results include: our ability to maintain current resource utilization rates and productivity levels; our ability to manage attrition and attract and retain highly-skilled IT professionals; our ability to accurately price our client contracts; our ability to achieve our anticipated growth; our ability to effectively manage our rapid growth; our ability to retain our senior management team and other key employees; our ability to continue to innovate and remain at the forefront of emerging technologies and related market trends; our ability to retain our business relationships and client contracts; our ability to manage the impact of global adverse economic conditions; the risks associated with the evolving market for products with AI capabilities; our ability to manage uncertainty concerning the instability in the current economic; political and social environment in Latin America; and other factors discussed under the heading “Risk Factors” in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission and any other risk factors we include in subsequent reports on Form 6-K.

Because of these uncertainties, you should not make any investment decisions based on our estimates and forward-looking statements. Except as required by law, we undertake no obligation to publicly update any forward-looking statements for any reason after the date of this presentation whether as a result of new information, future events or otherwise.
